

Sean Chamanara

WordPress Developer & Front-End Engineer

Los Angeles, CA • 323.394.2880 • seanchamanara@gmail.com • seanchamanara.com • [LinkedIn](#)

Professional Summary

WordPress Developer with 8+ years of experience building high-performance, accessible, and scalable web platforms for major brands including Disney, Joico, and SexyHair. Deep expertise in custom theme and plugin development, PHP, Advanced Custom Fields, and third-party API integrations. Combines technical precision with a UX-informed design sensibility — backed by UCLA UX Design training — to deliver intuitive digital experiences that perform and convert.

WordPress Expertise

Theme Development: Custom theme architecture, PHP customization, template hierarchy, child themes

Plugins & Extensions: Custom plugin development, ACF, Custom Post Types, WooCommerce, BazaarVoice

Performance: Core Web Vitals optimization, caching, CDN configuration, asset optimization

Accessibility: WCAG 2.1 audits, W3C compliance implementation, semantic HTML structure

Integrations: REST APIs, eCommerce platforms, consent-triggered marketing tools, third-party APIs

Content Architecture: Gutenberg, page builder customization, multilingual/regional site management

Technical Skills

Languages: PHP, JavaScript (ES6+), HTML5, CSS3, jQuery

CMS & Platforms: WordPress, Shopify, Custom Post Types, Advanced Custom Fields

Tools & Workflow: Figma, REST APIs, Google Analytics, Browser DevTools, Responsive Design

SEO & Analytics: Technical SEO, Core Web Vitals, Google Search Console, Schema markup

Professional Experience

Lead Developer & Project Manager | [LAS Agency](#) | 2021 – Present

- Lead end-to-end WordPress development for high-traffic multinational brand sites including Joico and SexyHair, managing custom theme builds, PHP customizations, and third-party integrations.
- Develop and extend custom plugins and theme functionality via PHP to support unique business requirements beyond out-of-the-box WordPress capabilities.
- Conduct comprehensive WCAG accessibility audits and implement W3C-compliant code updates across all browsers and devices.
- Optimize sites for Core Web Vitals and search performance, resulting in improved rankings and user engagement.
- Oversee regional site localization for South America, Canada, and Australia, managing multilingual content architecture.
- Integrate third-party platforms including BazaarVoice reviews, Salonory eCommerce, and consent-triggered marketing tools.
- Serve as primary technical liaison between clients, stakeholders, and development teams — translating business requirements into actionable specs.

Web Master | [Cyberset](#) | 2019 – 2020

- Managed full-cycle WordPress development projects, modernizing legacy sites to improve performance and cross-device accessibility.
- Implemented responsive design and WCAG standards across client portfolios, enhancing UX and boosting SEO metrics.
- Collaborated with stakeholders to define technical requirements, ensuring seamless project execution from concept to launch.

Web Developer | [Disney ABC](#) | 2017 – 2019

- Built high-visibility special event marketing sites using responsive WordPress frameworks for millions of users.
- Managed extensive digital assets within a complex CMS, ensuring accurate and timely publication of promotional content.
- Maintained 100% site uptime during critical marketing campaigns through proactive issue identification and cross-team collaboration.

Key Projects

Joico.com — [joico.com](#)

- Custom PHP theme development, WCAG compliance audits, and regional localization for SA, Canada, and Australia.
- Integrated BazaarVoice product reviews and Salonory eCommerce platform; managed 6–8 monthly content campaigns.

SexyHair.com — [sexyhair.com](#)

- Designed and built full multinational site including homepage, blog, and product architecture with custom PHP functionality.
- Integrated BazaarVoice reviews; built interactive quizzes and event pages for consumer and professional audiences.

Terra Vista Tejon — [terravistatejon.com](#)

- Designed and developed rental property site featuring tour booking integration, property galleries, and interactive floor plans.
